

# CyberSentinel®

e-Safety for the home  
...in a few easy clicks

**Affordable and flexible**  
allowing up to 5 users  
only **£25.00** inc.VAT per year

**How safe are your children when they use the Internet?  
Are they at risk from online predators, unsuitable content and harmful influences?**

If you want day-to-day online protection and monitoring for your child, then CyberSentinel is your answer.

CyberSentinel provides e-Safety for your children for web sites, chat rooms, instant messaging, social networks and much more.

It helps good parents do an even better job – by giving your children the freedom to thrive online in safety.

The technology behind CyberSentinel already protects nearly one million children and students at over 1500 schools.

Now it's available for the home ... and for you.

**You can try CyberSentinel for FREE for up to 14 days.**

## PROTECT YOUR CHILDREN

- » Set safe boundaries with a few clicks
- » Customise settings for each child
- » Receive email alerts if there's a problem
- » Change the rules when you want from any on-line computer
- » Monitor them – don't spy on them
- » FREE to try (no credit card required!)
- » It costs less than 50p per week
- » Your privacy is protected. No personal details are required – just an email address.

"The internet offers children and young people a wide range of opportunities for fun, learning and development BUT we are right to be concerned over the risk posed to children from inappropriate online material and contact online. Using an e-safety package such as CyberSentinel gives your children the freedom to thrive in an online environment with safeguards built in."

**Professor Tanya Byron, child psychologist, author, newspaper columnist and TV presenter.**

## How CyberSentinel provides e-Safety for the home

### CyberSentinel helps you to say 'yes' again ... when your children want to go online.

The software provides protection – while maximising your children's online freedom – within safe boundaries set by you.

CyberSentinel filters out harmful web sites and scans for any 'danger' keywords that appear on the screen.

### CYBERSENTINEL PROVIDES A TOTAL E-SAFETY SOLUTION FOR THE HOME:

- » Protection for web sites, instant messaging, chat rooms, email, file-sharing and more
- » Blocks inappropriate Internet sites (eg porn, violence, drugs and suicide themes)
- » Checks on all outgoing and incoming information
- » Detects any problems immediately

### CYBERSENTINEL ALSO LETS YOU:

- » Log in to your control panel remotely from any PC and see what your children are doing online at home at any moment – with the ability to change the settings immediately
- » Restrict the hours your children spend online
- » Control chat and internet access at certain times
- » Choose visible or invisible monitoring modes
- » Ease the rules as your child gets older, wiser and safer online.

### Start protecting your home today

You can try CyberSentinel for up to 14 days for FREE - without having to enter any credit card details.

### CYBERSENTINEL HELPS TO PROTECT YOUR CHILDREN AGAINST THESE COMMON INTERNET DANGERS:

- » Encountering online predators in chat rooms or social networks
- » Coming across bad language
- » Seeing disturbing images or videos on web sites
- » Stumbling into pornographic web sites accidentally
- » Accessing pornographic web sites
- » Visiting sites that feature violence or racism
- » Being tempted by gambling web sites
- » Getting bullied or threatened in messages or on web sites
- » Using their webcam – when strangers are watching
- » Online relationships with inappropriate people
- » Giving away too many personal details
- » Visiting web sites that glorify suicide or self-harm
- » Visiting web sites that encourage eating disorders
- » Downloading movies, games or music illegally
- » Using your credit card to shop online (without permission)
- » Bidding/buying from auction sites (without permission)
- » Spending too long online (and getting addicted)
- » Going online at night - when you're asleep - making them tired the next day and affecting schoolwork.

MONITORING AND E-SAFETY SOFTWARE THAT PROVIDES A SAFER ON-LINE ENVIRONMENT  
...WHERE EVERYONE CAN THRIVE.
